WEATHER FORECASTS FOR WARSAW AND KRAKOW AREAS.
24 - 30 OCTOBER 1951

The following reports were taken from the Trybuna Ludu. All temperatures are in degrees centigrade.

Fog or haze at night and in the morning, considerable cloudiness during the day, clearing locally, particularly in the eastern and northwestern parts of the country. Elsewhere, very light local rain. Local light frost during the night in the east. Highest temperature range during the day from 8 to 15 degrees. Light variable winds.

Fog or haze in the morning, generally cloudy during the day with considerable cloudiness in the south and possible light rain. Light frost during the night. Temperature range during the day from 6 to 13 degrees. Light variable winds.

Fog or haze during the night and in the morning, generally cloudy during the day, clearing locally with possible light rain in the south and north. Light frost during the night, highest temperature during the day from 4 degrees in the south to 12 in the inland areas. Light variable winds.

Some considerable cloudiness, particularly in the northern part of the country. Generally fair or quite fair. Light frost during the night and in the morning hours, heavier frost in the east with local fog or haze. Temperature

STAT

range from 8 degrees in the east to 14 degrees in the inland areas. Calm and light winds, occasionally variable, prevailing easterly and southeasterly turning to southerly.

30 October

Local fog in the morning, fair or quite fair during the day, considerable cloudiness only in the northeastern part of the country. Light frost during the night, heavier frost in the east. Temperature range from 8 to 14 degrees. Light easterly winds.

II. KRAKOW AREA

The following reports were compiled by the State Hydrological and Meteorological Institute of Krakow and published in the Dziennik Polski. All temperatures are in degrees centigrade.

23 October

Foggy in the morning. Cloudy during the day, increasingly clear in the eastern part of the country and rain in the western part. Temperature during the day about 16 degrees. Temperature high in the mountains from zero to 8 degrees. Light winds with moderate and strong southerly and southwesterly winds in the mountains.

25 October

Generally cloudy and foggy, increasingly clear during the day with some cloudiness and possible light rain. Temperature 16 degrees. Temperature during the night from zero to 6 degrees. Temperature in the mountains from 2 to 7 degrees. Prevailing light and moderate northwesterly winds.

26 October

Cloudy and foggy, possibly clearing locally. Temperature about 10 degrees. Temperature during the night from zero to 4 degrees. Light easterly and southeasterly winds.

27 October

Cloudy and foggy during the morning, clear later. Temperature range during the day from 5 to 10 degrees. Temperature during the night around zero. Light easterly and southeasterly winds.

28 October

Variable cloudiness, generally, however, quite fair with local fog during the morning hours. Temperature during the day 12 degrees, light frost during the night. Temperature high in the mountains from zero to minus 6 degrees. Easterly winds.
